### How to bet on yourself!

It's Women's History Month and although the focus is on women, this article is also geared towards men, who play an important role in supporting the women in their lives!

I have two questions to ask you:

1. If you could be anything, what would you be?
2. And if you could do anything, what would you do?

Connecting *who* it is you aspire to be with *what* it is you aspire to do is possible. Today, I want to encourage my fellow founders of the power you have within you. You can choose to tap into this ability at any time. You can make the switch and break free of the limiting beliefs that society or even you have placed upon yourself. So how can we break free of our own limiting beliefs? [Here are five pieces of advice from my personal learnings in building Rizzarr...](#)

## Girls Group

Girls Group empowers young women to achieve emotional and economic self-sufficiency by ensuring they graduate from high school and begin their college or career journeys. Serving 630 young women from middle school through college and careers, Girls Group works with approximately 67% of participants in the Ann Arbor Area and 33% in the Ypsilanti area.

Girls Group develop the academic and emotional skills necessary for future success, planning for college by attending college tours, working on applications and essays with Girls Group mentors, and improving their academic performance.

One of AAACF's Community Grantmaking grantees from 2018-2020, Girls Group received unrestricted, multi-year grant funding to support their work, in addition to program-specific funding in recent years. General operating support grantees like Girls Group demonstrate strong leadership & governance, high-quality & impactful programs, and financial strength.

### A2EF + BIØM MEADWORKS: Tech Connections + Cellar "Sessions"

April 22nd, 12pm - 12:25pm

Bløm Meadworks (pronounced “bloom”), specializes in session meads and ciders – they’re light, dry, carbonated, and remarkably sessionable. They start with the same ingredients as a traditional mead - honey, water and yeast - which means all ingredients can be sourced from Michigan. Unlike most meads though, they ferment it like a dry craft cider, so the result isn’t nearly as thick or sweet as traditional mead. So, if the word “mead” automatically conjures a drinking hall filled with Vikings for you, think of Bløm’s as its friendly, approachable descendants, without the pillage and plunder.

Join us for a special A2EF virtual tasting to explore the raw honey used in meads, plus a selection of three of Bløm’s session meads and ciders! This is also a great way to support local businesses right now!
